Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on application filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Apr. 17, 1989. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the patent.

Attention is drawn to the patents which were issued on June 10, 1986, for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,593,415 through 4,594,733
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on June 8, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,333,179 through 4,334,324
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months and seven years and six months are set forth in 37 CFR 1.20(e), (f), (h) and (i), as amended effective Apr. 17, 1989, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a

design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant.....$245.00"

"(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant.....$495.00"

"(h) For maintaining an original or reissue patent except a design or plant patent, based on an application filed on or after Aug. 27,1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)).....$ 245.00
By other than a small entity.....$ 490.00"

"(i) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§1.9(f)).....$495.00
By other than a small entity.....$990.00"

The amounts of the surcharges as amended effective Apr. 17, 1989, are set forth in 37 CFR 1.20 (k), (l) and (m) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months , seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982.....$120.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity(§1.9(f)).....$60.00
By other than a small entity.....$120.00"

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a main tenance fee where the delay is shown to have been unavoidable.....$550.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Registration to Practice

The following list contains the names of persons applying for registration to practice before the United States Patent and Trademark Office. These persons have been given provisional recognition pursuant to 37 CFR 10.9(a) to prepare and prosecute patent applications before the Office. Final approval for registration is subject to establishing to the satisfaction of the Director of

Enrollment and Discipline that the person seeking registration is of good moral character and repute. [37 CFR 10.7(a)]. Accordingly, any information tending to affect the eligibility of any of the following applicants on moral, ethical, or other grounds should be furnished the Director, Office of Enrollment and Discipline on or before July 14, 1989:

[Docket No. 90525-9125]

Interim Protection for Mask Works of Nationals, Domiciliaries, and Sovereign Authorities of Austria

Agency: Patent and Trademark Office, Commerce
Action: Issuance of Interim Order
Summary: The Secretary of Commerce has delegated to the Assistant Secretary and Commissioner of Patents and Trademarks, by Amendment 2 to Department Organization Order 10-14, the authority under Section 914 of title 17 of the United States Code, the Semiconductor Chip Protection Act of 1984 (SCPA), to make findings and to issue orders for the interim protection of mask works.

On March 7, 1989, the Patent and Trademark Office received a petition for the issuance of an interim order from the Austrian Patent Office. On April 4, 1989, a Notice of Initiation of Proceedings was published at 54 FR 13549, whereby the Commissioner requested comments on the Austrian Federal Law of June 23, 1988, on the Protection of Microelectric Semiconductor Products. Comments supporting the grant of an interim order were received from the U.S. Semiconductor Industry Association. The Commissioner has determined that the Austrian legislation meets the statutory requirements of section 914 of the SCPA, and has determined that an interim protection order shall issue for the protection of mask works of nationals, domiciliaries, and sovereign authorities of Austria. The order will remain in effect until October 31, 1989, the date on which all other orders issued under section 914 will expire.
Dates: The effective date of this order shall be March 7, 1989, the date of receipt of the petition. This order shall terminate on October 31, 1989.
For Further Information Contact: Michael K. Kirk, Assistant Commissioner for External Affairs, by telephone at (703) 557-3065, or by mail marked to his attention and addressed to Commissioner of Patents and Tradermarks, Box 4, Washington, D.C. 20231.
Supplementary Information: Chapter 9 of title 17 of the United States Code establishes an entirely new form of intellectual property protection for mask works that are fixed in semiconductor chip products. Mask works are defined in 17 U.S.C. 901(a)(2) as:

> "a series of related images, however, fixed or encoded
> (A) having or representing the predetermined, three-dimensional pattern of metallic, insulating or semiconductor material present or removed from the layers of a semiconductor chip product; and
> (B) in which series the relation of the images to one another is that each image has the pattern of the surface of one form of the semiconductor chip product."

Chapter 9 further provides for a 10-year term of protection for original mask works measured from their date of registration in the U.S. Copyright Office, or their first commercial exploitation anywhere in the world. Mask works must be registered within 2 years of their first commercial exploitation to maintain this protection.

Foreign mask works are eligible for protection under this chapter under basic criteria set out in section 902; first, that the owner of the mask works is a national, domiciliary, or sovereign authority of a foreign nation that is a party to a treaty providing for the protection of the mask works to which the United Sates is also a party, or a stateless person wherever domiciled; second, that the mask work is first commericially exploited in the United States; or that the mask work comes within the scope of a Presidential proclamation. Section 902(a)(2) provides that the President may issue such a proclamation upon a finding that:

> "a foreign nation extends to mask works of owners who are nationals or domiciliaries of the United States protection (A) on substantially the same basis as that on which the foreign nation extends protection to mask works of its own nationals and domiciliaries and mask works first commercially exploited in that nation, or (B) on substantially the same basis as provided under this chapter to mask works (i) of owners who are, on the date on which the mask works are registered under section 908, or the date on which mask works are first commercially exploited anywhere in the world, whichever occurs first, nationals, domiciliaries, or sovereign authorities of that nation, or (ii) which are first commercially exploited in that nation."

Although this chapter generally does not provide protection to foreign owners of mask works unless the works are first commercially exploited in the United States, it is contemplated that foreign nationals, domiciliaries, and sovereign authorities may obtain full protection if their nation enters into an appropriate treaty or enacts mask works protection legislation. To encourage steps toward a regime of international comity in mask works protection, section 914(a) provides that the Secretary of Commerce may extend the privilege of obtaining interim protection under chapter 9 to nationals, domiciliaries and sovereign authorities of foreign nations if the Secretary finds:

> "(1) that the foreign nation is making good faith efforts and reasonable progress toward—
> (A) entering into a treaty described in section 902(a(1)(A), or
> (B) enacting legislation that would be in compliance with subparagraphs (A) or (B) of section 902(a)(2); and
> (2) that the nationals, domiciliaries and sovereign authorities of the foreign nation, and persons controlled by them, are not engaged in the misappropriation, or unauthorized distribution or commercial exploitation of mask works; and
> (3) that issuing the order would promote the purposes of this chapter and international comity with respect to the protection of mask works.

On March 7, 1989, a petition for the issuance of an interim order under 17 U.S.C. section 914 was submitted to the Commissioner by the Austrian Patent Office on behalf of the Austrian Government. The petition was in the form of a letter from Dr. Josef Fichte, President of the Austrian Patent Office, and a copy of the Austrian Federal Law of June 23, 1988 on the Protection of the Topographies of Microelectronic Semiconductor Products (Austrian Law).

In its comments, the U.S. Semiconductor Industry Association (SIA) states that the Austrian Law appears to afford protection to U.S. mask works on substantiallly the same basis as provided under the SCPA. SIA recommends issuance of an order extending interim protection to Austrian mask works until October 31, 1989, the date until which existing interim orders have been extended. Thorough review of the Austrian statute is appropriate then, in SIA's view, when the legal regimes for mask work protection in all countries subject to section 914 orders are under consideration.

The record of this proceeding supports a finding that Austria has met the statutory requirements of section 914 (a)(2) by establishing a system for the protection of mask works in Austria on substantially the same basis as the SCPA. The Austrian Law provides an exclusive right to the creator of a topography, defined as a three-dimensional structure of microelectronic semiconductor products. The Law provides protection on the basis of non-commonplace originality resulting from an intellectual effort of the creator. Compulsory licenses are not permitted. An exemption for reverse engineering is included, and innocent infringers are protected.

The Austrian Law establishes a registration system, and the term of protection for eligible topographies is ten years from the date of first commercial exploitation or the date of filing with the Austrian Patent Office, whichever occurs first.

Protection under the law is available to both nationals and residents of Austria and, on a reciprocal basis, to nationals and residents of (1) States party to an international agreement to which Austria is a party, or (2) States identified in ordinances of the Federal Minister for Economic Affairs. Unlike the SCPA, the Austrian Law does not provide for interim protection. The Austrian Government has declared its intention to extend protection under the Law to mask works of the U.S. nationals and domiciliaries, and to mask works first commercialized in the United States.

The record contains no evidence that nationals, domiciliaries or sovereign authorities of Austria are engaged in the misappropriation, unauthorized distribution, or unauthorized commercial exploitation of mask works. Accordingly, the Commissioner finds that issuance of an interim order will promote the purposes of the SCPA and international comity with respect to the protec-

tion of mask works. The order shall be effective as of March 7, 1989, the date on which the petition was received. The order shall terminate on October 31, 1989, the expiration date of all other existing interim orders issued under section 914. *See* 54. Fed. Reg. 13931 (April 6, 1989).

ORDER EXTENDING INTERIM PROTECTION UNDER CHAPTER 9, TITLE 17, UNITED STATES CODE, TO NATIONALS, DOMICILIARIES AND SOVEREIGN AUTHORITIES OF AUSTRIA

In accordance with the authority vested in me by Amendment 2 to Department Organization Order 10-14 regarding 17 U.S.C. 914, and based upon the record of this proceeding commenced on March 7, 1989, I find that: Austria is making and has been making, since March 7, 1989, good faith efforts toward providing effective protection for mask works in compliance with 17 U.S.C. 902(a)(2); that nationals, domiciliaries, and sovereign authorities of Austria and persons controlled by them are not engaged in the misappropriation or unauthorized distribution or commercial exploitation of mask works; and that the issuance of this order will promote international comity with respect to the protection of mask works.

Accordingly, nationals, domiciliaries, and sovereign authorities of Austria are entitled to protection under Chapter 9 of title 17, United States Code, subject to compliance with all formalities specified therein. The effective date of this order is March 7, 1989, and this order shall terminate on October 31, 1989.

SPECIAL BOXES FOR MAIL

Special PTO mail box numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these boxes. If any documents other than the specified type identified for each box are addressed to that box, they will be delayed in reaching the appropriate area for which they are intended.

The following special boxes should be used only for their specified purpose. Address mail as follows:

Box _____

TRADEMARK APPLICATION	New trademark application and associated papers and fees.

Reference Collection of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
